Hello everyone,

### Evening Soiree

On Tuesday night I had the pleasure of attending our Evening Soiree night. The show began with two beautiful pieces; Vivaldi's Concerto in D Minor and Sibelius' Hymn, Be Still My Soul. The orchestra also ended the evening with two great pieces; Saint Saen's Carnival of the Animals and a fantastic rendition of the Lord of the Dance by Ronan Hardiman. This orchestra is made up of interested students from Year 2 to 6 who wish to extend their skills. They attend an extra orchestra session out of school hours and have developed a growing repertoire of pieces. In between these 'bookends' we were treated to individual and some group pieces by some of our students in the Instrumental Program from Year 3 to 6. How wonderful it was to watch so many of our Year 3's step up and challenge themselves to performing solo after only two scant terms of learning their instrument. How gratifying it was to watch children in the other classes also extend themselves by courageously performing solo. Many thanks to our wonderful Instrumental teaching team of Felicite Heine, Jonathan Tosio and Michael Webb. Your musicianship and strong teaching skills were very evident on the night, as was the respect and trust your students have for you. Well done to you all. Thanks also to the parents who attended to support our students.

### Jump Rope for Heart

On Wednesday this week we held our Heart Foundation 'Jump Rope for Heart' Jump Off. It was great to see so many of our students, teachers and parents get into the spirit of the day by wearing red and participating in the skipping activities. Thank you to those families who fundraised for this event. Thanks also to John Seary and our Year 6 student leaders for their coordination of this fun day.

Until Next Time.....*Maria Shearn - Principal*

Dear Parents and Carers,  
Thankyou for sponsoring your son/daughter at our Jump Rope Day yesterday. So far, we have raised **\$4,120.00**, which is an amazing achievement. Your contributions will go towards helping support outstanding research into the cause, diagnosis, treatment and prevention of cardiovascular disease.
